I. NEW ACTIVITIES

a. On 23 December, Chief Instructor, CPO, met with members of the BIC(CS) staff to discuss the coordination of the treatment of Communist material in these two courses.

b. Acting on a student's suggestion, Chief Instructor, OB, is attempting to redesign his comprehensive problem so that it will run concurrently with classroom instruction throughout the course, rather than being concentrated in the last two days.

c. Inasmuch as only two students have been enrolled for the CFA beginning 11 January and two students for the [redacted] beginning 11 January, we have again been faced with the necessity of deciding whether to cancel these courses. The [redacted] has been cancelled, but tutorial instruction can be provided for the two enrollees if they are pressed for time. Final decision regarding the CFA will not be made until 4 January.
